## Magswitch MagJig 95

Magswitch Part Number 8110004

### Instant Holding Power For Any Custom Jig Or Fixture

#### *Replaces Clamps, Holds Where No Clamps Can Reach!*

- Drill 30mm hole with a forstner bit in any ¾" (19mm) stock and insert MagJig for secure holding power
  - Can be secured with 2 #8 sized screws
  - Up to 95 lbs (43 kg) of clamping force per MagJig
- Exceptional shear force holding power to prevent movement
- Use two for most applications to prevent pivot and movement
- Drill and add more when even greater holding power is needed

- Create Fences, Assembly Jigs, Cutting Fixtures, Blade Guards, Work Supports or anything that makes your work faster, safer and easier
  - ½ turn of the knob turns the magnet completely On or Off
- Stores easily on the side or legs of most any tool in your shop
  - Works on every cast iron or steel tool in your shop!
  - Item Weight 4.7 oz (133 Grams)
