TERRATINTA group

Terratinta Group has been established in 2017 to merge two ceramic companies and their brands: Terratinta Ceramiche and Ceramica Magica.

Both brands span over 50 countries around the world with their individual identities harmonized, providing a high-end product in Italian porcelain stoneware. A third new brand has been launched in 2018: Sartoria. Just a year later, in 2019, we acquired the brand Micro. Last (but not least), in 2020 we launched Atmosfere, an ambitious and original project that presents furniture and accessories for the interior based on our passion for ceramics, where multiplicity and multidisciplinary create a whole new style.

At the end of 2020 we had the honour to become a Benefit Company, with a change in our Statute that is now part of the Company's DNA. A series of precise and measurable objectives that will lead us to operate more and more responsibly, sustainably and transparently, going beyond the common logic of profit, with precise objectives also connected to the well-being of the community.

Our story developed over time thanks to our core values: passion, simplicity and professionalism. It's a young group that continues to flourish every day, within an ultra-competitive industry.

Because our history is **#notaclassicstory**.

Terratinta Group nasce nel 2017 per unire due aziende ceramiche e i loro marchi: Terratinta Ceramiche e Ceramica Magica.

Entrambi i brand abbracciano oltre 50 paesi nel mondo con le loro singole identità armonizzate, fornendo un prodotto in gres porcellanato italiano di alta gamma. Un terzo nuovo brand è stato lanciato nel 2018, Sartoria. Appena un anno dopo, nel 2019, abbiamo acquisito il brand Micro. Infine (ma non meno importante), nel 2020 abbiamo lanciato Atmosfere, un progetto ambizioso e originale che presenta mobili e complementi per l'interior design nati dalla nostra passione per la ceramica, dove diversità e multidisciplinarietà creano uno stile completamente nuovo.

Con grande orgoglio, a fine 2020 siamo diventati Società Benefit, con una modifica del nostro Statuto Societario che si inserisce nel DNA dell'Azienda. Una serie di obiettivi precisi e misurabili che ci porteranno ad operare in modo sempre più responsabile, sostenibile e trasparente, andando oltre la comune logica del profitto, con precisi obiettivi legati anche al benessere della comunità.

La nostra storia si è sviluppata nel tempo grazie a valori fondamentali: passione, semplicità e professionalità. Un giovane gruppo che continua a prosperare ogni giorno, all'interno di un settore ultra competitivo.

Perché la nostra storia è **#notaclassicstory**.

Our new Headquarters

Terratinta Group now has a permanent "home".

In the heart of Made in Italy ceramics, we are proud to have restored a historic building in our district innovatively and originally.

The next steps? A photovoltaic system that will make the building energy independent, and the complete renovation of the lighting systems in the warehouse.

We have dreamed of and want an environment that can best embrace the people who work there and convey our values to those who visit us.

La nostra nuova Sede

Terratinta Group ha oggi una "casa" definitiva.

Nel cuore del made in Italy ceramico, siamo orgogliosi di avere ripristinato con canoni innovativi ed originali un immobile storico per il nostro distretto. I prossimi passi?

Un impianto fotovoltaico che ci renderà autonomi dal punto di vista energetico, fino al rinnovamento completo degli impianti di illuminazione del magazzino.

Abbiamo sognato e vogliamo un ambiente che possa accogliere al meglio le persone che ci lavorano e far trasparire i nostri valori a chi ci visita.

Corporation

Our green heart

Terratinta Group is committed to integrating Sustainability approaches in its business activities through tangible actions of environmental, social and governance improvement. The company developed a strategic approach to the issue starting in 2019 with the CHANGE project, and then built an evolution path that led it to adopt the legal form of a Benefit Company (SB) and to define a detailed set of improvement targets described in our Sustainability Report. Since 2020, the company has also achieved Carbon Neutrality, compensating for direct and indirect energy greenhouse gas emissions.

After an in-depth process of corporate performance analysis carried out over the last three years by B Lab, Terratinta Group has obtained the B Corp Certification. B Corp companies are realities that voluntarily commit to comply with high standards of transparency and sustainability to improve and certify their positive impact towards the environment, stakeholders, workers and the community to create a more inclusive and sustainable economy. Terratinta Group wants to be a spokesperson for this way of doing business with a positive attitude, with concrete examples and small daily actions. Terratinta Group's commitment is not limited to generating profit for the company but aspires to pursue the common good of the company's main stakeholders: suppliers, employees, customers, and the community. Lastly, a pivotal theme for Terratinta Group always remains corporate welfare: a special focus on its employees and on achieving a work-life balance, involving the work team in health protection programmes as proof of a project that looks to the future.

This company is part of
the global movement for
an inclusive, equitable and
regenerative economic system.

Il nostro cuore verde

Terratinta Group è impegnata ad integrare la Sostenibilità nelle proprie attività d'impresa attraverso azioni concrete di miglioramento ambientale, sociale e di governance. L'azienda ha sviluppato un approccio strategico al tema a partire dal 2019 con il progetto CHANGE, per poi strutturare un percorso evolutivo che l'ha portata ad adottare la forma giuridica di Società Benefit (SB) e a definire un preciso set di obiettivi di miglioramento descritti nel nostro Report di Sostenibilità. Dal 2020 l'azienda ha raggiunto il traguardo della Carbon Neutrality, compensando le emissioni climalteranti dirette ed indirette energetiche.

Dopo un approfondito processo di analisi delle performance aziendali portato avanti nel corso degli ultimi 3 anni da parte di BLab, Terratinta Group ha ottenuto la Certificazione B Corp. Le aziende B Corp sono realtà che si impegnano volontariamente a rispettare elevati standard di trasparenza e sostenibilità per migliorare e certificare il proprio impatto positivo verso l'ambiente, gli stakeholders, i lavoratori e la comunità per dare vita a un'economia più inclusiva e sostenibile. Terratinta Group vuole farsi portavoce di questo modo di fare impresa con un'attitudine positiva, con esempi concreti e piccole azioni quotidiane. L'impegno di Terratinta Group non si limita a generare profitto per l'azienda, ma aspira a perseguire il bene comune dei principali portatori di interesse dell'azienda stessa: i fornitori, i dipendenti, i clienti, la comunità. Infine, un tema cardine per Terratinta Group rimane sempre il welfare aziendale: un'attenzione particolare rivolta ai propri collaboratori e alla realizzazione di un equilibrio tra vita lavorativa e vita privata, coinvolgendo la squadra di lavoro in programmi di tutela della salute a riprova di un progetto che guarda al futuro.

#terratintastyle

#terratintastyle is the venue through which we share our vision, our personal style translated into actual products.

How we do this? Following our inspirations and vision, being creative, trusting our instincts, studying the market and the client's needs and not being afraid to take chances and make our own choices.

For us, the balance between tradition and innovation, between vintage and modern, is the key: we propose big sizes alongside small sizes interpreted through nowadays modern technologies.

#welovegreys is our keyword: matching many different grey tones which follow clean lines and timeless design, moving between concrete and stone inspiration, with the warm touch of colors and decoration.

We created a new warm minimalism, following the latest trends in style and design. For these reasons, they can imitate us, but **#terratintastyle** will always be something different.

#terratintastyle è il luogo ideale attraverso il quale condividiamo la nostra visione, il nostro stile personale tradotto in prodotto.

Come lo facciamo? Seguendo la nostra ispirazione e la nostra visione, con creatività, seguendo il nostro istinto, studiando il mercato e le esigenze del cliente senza paura di rischiare e di fare le nostre scelte.

Per noi, l'equilibrio tra tradizione e innovazione, tra vintage e moderno, è la chiave: proponiamo grandi formati accanto a piccoli formati interpretati attraverso le moderne tecnologie di oggi.

#welovegreys è il nostro motto: abbinare diverse tonalità di grigio che seguono linee pulite e un design senza tempo, muovendosi tra ispirazione cemento e suggestioni nate dalla pietra, con il tocco caldo dei colori e di lievi decori.

Abbiamo creato un nuovo minimalismo caldo, seguendo le ultime tendenze dello stile e del design.

Per questi motivi, possono imitarci, ma **#terratintastyle** sarà sempre qualcosa di diverso.

#terratintastyle

OUR CORPORATE VIDEO

If you are asked to explain what Nordic style is, you can try to describe it with words and yet not being able to grasp it. You can outline it by talking about essential lines, functional shapes and natural elements. But these are just consequences, representations. Nordic design is first and foremost an idea, a philosophy... To reinterpret this philosophy in the ceramic sector by innovating the concept itself. That's why Terratinta was born. A completely new point of view that allowed us to generate concepts which simply did not exist before. We cleared the field off all the superstructures, the patterns of the past and created a warm minimalism, which has become the very essence of our work. A concept as simple and essential, as elusive and innovative. In a nutshell? Terratinta Ceramiche.

IL NOSTRO VIDEO CORPORATE

Se ti chiedono cos'è lo stile nordico puoi descriverlo con le parole, eppure non riuscire ad afferrarlo. Puoi descriverlo parlando di linee essenziali, forme funzionali ed elementi naturali. Ma queste sono solo conseguenze, rappresentazioni. Il design nordico è prima di tutto un'idea, una filosofia... Per reinterpretare questa filosofia nel settore ceramico innovandone la concezione, è nata Terratinta. Un punto di vista completamente nuovo che ci ha permesso di generare concetti che semplicemente prima non esistevano. Abbiamo liberato il campo dalle sovrastrutture, dagli schemi del passato e abbiamo ideato un minimalismo caldo, che è diventato l'essenza stessa del nostro lavoro. Un concetto tanto semplice ed essenziale, quanto inafferrabile e innovativo. In breve? Terratinta Ceramiche.

16

OUR PHILOSOPHY

The Nordic design of the 20th century revolutionised the concept of modern style, which gives importance to shapes, the natural characteristics of materials and their functionality.

Simple lines, quality, colours that blend into each other: a style of slow-living, simplicity and nature. Form follows function, everything must have a practical purpose. This does not mean compromising on style, but rather giving new meaning to the role of design.

It is from these concepts that #terratintastyle was born, a new way of conceiving ceramic collections. No longer single concepts as ends in themselves, but worlds that interact, creating new forms of expression.

LA NOSTRA FILOSOFIA

Il design nordico del ventesimo secolo ha rivoluzionato il concetto di stile moderno che dà importanza alle forme, alle caratteristiche naturali dei materiali e alla loro funzionalità. Forme semplici, qualità, colori che si fondono tra loro: uno stile improntato allo slow-living, alla semplicità e alla natura. La forma segue la funzione, tutto deve avere uno scopo pratico.

Questo non significa scendere a compromessi con lo stile, ma piuttosto dare un nuovo significato al ruolo del design. E' da questi concetti che è nato #terratintastyle, un nuovo modo di concepire le collezioni ceramiche. Non più singoli concept fini a sé stessi ma mondi che interagiscono, andando a creare nuove forme di espressione.

#terratintastyle

Study nature, love nature, stay close to nature. It will never fail you.

Frank Lloyd Wright

Norse

It is the story of a material which, thanks to its qualities of neutrality and versatility of use, becomes the protagonist of ceramic projects capable of experimenting with new design and aesthetic standards. Norse comes in various sizes developed in a palette of 7 neutral shades, both warm and cold, characterized by a surface that presents the effect of manual drafting typical of concrete with a slight graphic movement and is completed with new decorative patterns perfectly matched to create refined and unusual total looks and guarantee a high level of customization in line with current trends for increasingly original and individual settings, casual and comfortable but at the same time with an elegant sobriety and which promote the idea of intimacy as a lifestyle, a perfect marriage of a neat minimalism that is also warm and inviting.

E' il racconto di un materiale che, grazie alle sue qualità di neutralità e versatilità di impiego diviene protagonista di progetti ceramici capaci di sperimentare nuovi canoni progettuali ed estetici. Norse si sviluppa in diversi formati declinati in una palette di 7 tonalità neutre, sia calde che fredde, caratterizzate da una superficie che presenta l'effetto di stesura manuale tipico del Norse con un leggero movimento grafico e si completa con patterns decorativi inediti perfettamente abbinati per creare total look ricercati e inusuali e garantire un elevato livello di personalizzazione in linea con le tendenze attuali per ambienti sempre più originali e individuali, casual e confortevoli ma al tempo stesso dalla sobrietà elegante e che promuovano l'idea di intimità come stile di vita, un perfetto connubio tra un minimalismo ordinato che è anche caldo e invitante.

hand
made

Norse's decorative program includes a series of elements that combine materials, colours and three-dimensional modular features to provide a sensorial interpretation that amplifies the perception of the wall covering and allows multiple compositions. Designers break away from the conventions of tiles' use, creating evocative and unpredictable spaces by alternating tone-on-tone colours to match the tones of the collection to saturated shades taken from the Hexa palette.

Il programma decorativo di Norse prevede una serie di complementi che combinando materie, cromatismi e elementi modulari tridimensionali offrono un'interpretazione sensoriale che amplifica la percezione del rivestimento a parete e permette molteplici composizioni. I designer si sottraggono alle solite convenzioni d'uso delle piastrelle, creando spazi suggestivi e imprevedibili, alternando colori tono su tono in pendant con le tonalità della collezione a sfumature sature tratte dalla palette Hexa.

Stick

Terratinta Ceramiche presents the brand new Stick collection, the debut in kitkat mosaics.

Consistent with the warm minimalism that distinguishes our creations, Stick develops a range of 27 striking colours and two finishes: matt and glossy. Proposed in 29x30 cm (11,4 x12) sheets, Stick proves to be a collection with very ductile uses. It lends itself to both vertical and horizontal laying, just as it can be used for wall and floor coverings. The added value? The use of the colour of the joint, which can be chosen tone on tone or in contrast, to create distinctive looks.

Terratinta Ceramiche presenta la collezione Stick, il debutto nei mosaici kitkat.

Coerentemente con il minimalismo caldo che contraddistingue le nostre creazioni, Stick sviluppa una gamma di 27 colori suggestivi e due finiture: matt e glossy. Proposta in fogli di formato 29x30 cm, Stick si rivela una collezione dagli usi molto duttili. Si presta infatti sia alla posa in verticale che in orizzontale, così come può essere impiegata sia a rivestimento che a pavimento.

Il valore aggiunto? L'uso del colore della fuga, che può essere scelta tono su tono oppure in contrasto, per realizzare look distintivi.

Hexa

Hexa Mosaic Laurel Green
31,6x31,6cm matt

In Hexa we find all the values of the Terratinta brand: a sharp style, warm minimalism, elegance and essence but with personality, without neglecting technical and technological avant-garde features. A unique product, with a strong innovative character, with unprecedented freedom of expression. Hexa Mosaic hexagonal chips, made of double-loading porcelain stoneware, are suitable for both floors, residential and high traffic, as well as walls, in the Matt finish. In sheets of 31.6x31.6 size with hexagonal chips in the exclusive Terratinta 4.3x3.8 size, produced with high-level technology made in Italy.

The innovative Mosaic Mix stands next to the traditional Hexa mosaic, skillfully mixing three different but complementary finishes: matt, a shiny glossy and fabric, an innovative texture that replicates on the tiles the texture of textile fibers creating a unique 3D effect. The collection also offers Hexa Wall, hexagonal white body extruded ceramic tiles with a soft Glossy finish, in 5 colors in 17,3x15cm size, produced with a semi-artisan technology with an authentic handmade effect, thanks to different punches that create always different wavy surface effects. These bright hexagons offer a vintage style combined with new trendy shades.

In Hexa ritroviamo i valori del brand Terratinta: uno stile preciso, il caldo minimalismo, eleganza ed essenza, ma con personalità, senza tralasciare aspetti tecnici e tecnologici all'avanguardia. Un prodotto unico, dal forte carattere innovativo, con una libertà di espressione senza precedenti. Le tessere esagonali Hexa Mosaic, realizzate in gres porcellanato in doppio caricamento, sono adatte sia per pavimenti, residenziali e ad alto traffico, che per rivestimenti, nella finitura Matt. In fogli dal formato 31,6x31,6 con tessere esagonali nel formato esclusivo Terratinta 4,3x3,8, il mosaico Hexa è prodotto con tecnologia di alto livello made in Italy.

Al mosaico Hexa più tradizionale si affianca il Mosaic Mix che mescola sapientemente tre finiture diverse ma complementari: matt, un lucente glossy e fabric, un'innovativa texture che replica sulle tessere la grana del tessuto creando un effetto 3D unico.

La collezione propone anche Hexa Wall, piastrelle ceramiche esagonali estruse in pasta bianca con una finitura Glossy morbida. Hexa Wall è proposto in 5 colori nel formato 17,3x15cm ed è prodotto con una tecnologia semi-artigianale con un autentico effetto fatto a mano, grazie all'uso di tamponi che creano effetti superficiali ondulati e sempre diversi. Queste esagone luminose offrono uno stile vintage unito alle nuove tonalità di tendenza.

LAGOM

THE ESSENCE OF STONE

We live in a fluid age, where we are connected to work 24 hours a day to the detriment of our time: we impatiently wait for answers from our interlocutors at all hours. We are so busy that we forget we have a life. The way out? By deciding together to change our mindsets, behaviours and lifestyles and reclaim the right balance between work and home life. The inspiration comes to us from Sweden. Lagom is the Swedish word for 'the right amount, neither too much nor too little'. It comes from the phrase lagom är bäst which means the right amount is the best. The Lagom collection from Terratinta Ceramiche fully embraces this philosophy, treating the natural essence of stone without excess, remaining as true as possible to its identity.

Viviamo in un'epoca fluida, in cui siamo connessi al lavoro h24 a discapito del nostro tempo personale: aspettiamo impazienti risposte dai nostri interlocutori a tutte le ore. Siamo così occupati da dimenticarci di avere una vita. La via di fuga? Decidere tutti insieme di cambiare mentalità, comportamenti e stile di vita, riappropriandoci del giusto equilibrio fra lavoro e vita domestica. L'ispirazione ci arriva dalla Svezia. Lagom è la parola svedese che significa la giusta quantità, né troppo né troppo poco. Deriva dalla frase lagom är bäst che significa la giusta quantità è la migliore. La collezione Lagom di Terratinta Ceramiche abbraccia pienamente questa filosofia trattando l'essenza naturale della pietra senza eccessi, mantenendosi fedele quanto più possibile alla sua identità.

The Terrazzo technique, which can be considered ⁸¹ one of the macro-trends of recent years, is perfectly in line with the growing interest in all that is pattern. A poor born material, coming as a cement agglomerate of stone and marble scraps, it takes us back to the Italian history of the 1970s, made up of prestigious floors in Venetian palaces as well as simple floors in the residential homes of the time. A process we chose for the Lagom collection to decorate in a minimalist style, creating a retro and contemporary aesthetic at the same time, perfect for designing welcoming and balanced spaces in terms of both colour and style.

La lavorazione a Terrazzo, che può considerarsi uno dei macrotrend degli ultimi anni, è perfettamente in linea con il crescente interesse verso tutto ciò che è "pattern". Un materiale nato povero come agglomerato cementizio di scarti di pietre e marmi, ci riporta alla storia italiana degli anni '70, fatta di prestigiosi pavimenti dei palazzi veneziani così come di semplici pavimenti delle case residenziali del tempo. Una lavorazione che abbiamo scelto per la collezione Lagom per decorare in stile minimal creando un'estetica retrò e contemporanea al tempo stesso, perfetto per creare spazi accoglienti ed equilibrati sia per colore che per stile.

Kos

With Kos collection, we want to reinforce the idea of our design, made of simplicity, timeless beauty, aesthetics, never giving up on quality and latest technologies available.

A new interpretation within concrete look, minimalist and contemporary, with a new material that offers high-level performances and a style that ranges from architecture to interior design. Kos collection comes in 5 colors, with cooler and warmer shades of grey and several sizes, from the small ones to the bigger ones, with full continuity with #terratintastyle.

Con la collezione Kos, vogliamo rafforzare l'idea del nostro design, fatto di semplicità, bellezza senza tempo, estetica, che non rinuncia mai alla qualità e alle ultime tecnologie disponibili.

Una nuova interpretazione dell'effetto cemento, minimalista e contemporaneo, con un nuovo materiale che offre prestazioni di alto livello e un'estetica che spazia dall'architettura all'interior design. La collezione Kos è disponibile in 5 colori, con tonalità di grigio più fredde e più calde in diversi formati, dal grande al piccolo, in piena continuità con il nostro #terratintastyle.

Good design is obvious.
Great design is transparent.

Joe Sparano

CARL HANSEN & SØN

The Nordic mood of Terratinta Ceramiche meets the timeless design of Carl Hansen & Søn.

As the Scandinavian style teaches, Terratinta Ceramiche has always been committed to offer a product that respectfully and harmonically merges itself to the context, and Kos collection is the project that best embodies this concept. The neutral colors of Terratinta do not predominate on furnishings or surrounding spaces, but they rather enhance them with discretion and elegance. It's with these premises that a collaboration with Carl Hansen & Søn, one of the most famous and renowned Scandinavian design brands, is born.

Il mood nordico di Terratinta Ceramiche incontra il design senza tempo di Carl Hansen & Søn.

Così come insegna lo stile scandinavo, Terratinta Ceramiche si è sempre impegnata per offrire un prodotto che si integri con rispetto ed armonia al contesto, e Kos è il progetto che rappresenta al meglio questo concept. Le tinte neutre di Terratinta non predominano sugli arredi o gli spazi, ma al contrario li valorizzano con discrezione ed eleganza. Da queste premesse è nata la collaborazione con uno dei brand più storici e rinomati del design Scandinavo, Carl Hansen & Søn.

[Vicentina]

The qualities of Vicentina Cenere, its delicate nuances that move the surface offering imperceptible chromatic detachments within the same shade develop on different sizes and thicknesses for Terratinta Ceramiche. The uniqueness of Vicentina Cenere lies in the harmonious graphics, rich in hues, a faithful reproduction of the original stone, the Pietra of Vicenza, whose ancient characteristic elements can be glimpsed. The same peculiarities are also poured on large size. With the 6 mm thickness and 120x280 cm size slabs and the 12 mm thickness in 160x320 cm size, apt for counter tops, Vicentina Cenere offers strength, lightness, flexibility and ductility. Large slabs that reduces the presence of joints and interruptions in projects, versatile for every need.

Le qualità di Vicentina Cenere, le sue lievi tonalità che muovono la superficie offrendo impercettibili stacchi cromatici all'interno della stessa nuance si sviluppano per Terratinta Ceramiche su diversi formati e spessori. L'unicità di Vicentina Cenere risiede nella grafica armoniosa, ricca di sfumature, riproduzione fedele della roccia originale, la Pietra di Vicenza, in cui si scorgono gli antichi elementi caratteristici.

Le stesse peculiarità si riversano sul grande formato: sia con lastre in spessore 6mm e di dimensione 120x280, sia nello spessore 12mm in 160x320 adatto ai piani di lavoro, Vicentina Cenere offre resistenza, leggerezza, flessibilità, duttilità. Grandi lastre che permettono di ridurre la presenza di fughe e interruzioni nei progetti, versatili per ogni esigenza.

BETONMETAL

The peculiarity of the metal effect combined with the ductility of the concrete makes the Betonmetal collection original and of strong impact. A series inspired by the urban and contemporary style in which the signs, small scratches and the translucent effect become an added value. The allure of the metal surfaces is re-elaborated and developed in 4 sizes: 120x120, 60x120, 60x60, 30x60cm and on each surfaces we see the movement of the grains that recall the traces of time, together with the scratches and shades that move on the three colors proposed. ALUMINIUM, a light and delicate grey that combines with two strong colors like the dark BLACK STEEL and the rust color COPPER. The Hexa decoration with its characteristic hexagonal size is part of the collection to give free space to personalization.

La particolarità dell'effetto metallo unita alla duttilità del cemento rende la collezione Betonmetal originale e di forte impatto. Una serie ispirata allo stile urbano e contemporaneo in cui i segni, le piccole graffiature e l'effetto traslucido diventano valore aggiunto. Si rielabora così l'allure delle superfici metalliche, declinandole in 4 formati: 120x120, 60x120, 60x60, 30x60cm su cui si muovono le grane che rievocano le tracce del tempo, le scalfitture e le stonalizzazioni che si muovono sui tre colori proposti. ALUMINIUM, un grigio chiaro e delicato che si accosta a due colori forti come il nero notte BLACK STEEL e il color ruggine COPPER. Il decoro Hexa con il suo caratteristico formato esagonale si inserisce nella collezione per dare libero spazio alla personalizzazione.

Oppdal

Oppdal is born from a Norwegian stone inspiration, a quartzite with a minimal aesthetic that is characterized by the calcareous veins that simulate the effects of the original stone.

The series is available in 3 colors: Bomull, Grus and Kull, and available in 3 main sizes (24"x48", 24"x24", 12"x24") as well as innovative smaller sizes and mosaics. In addition to the Matt R10 finish there is an Ultra Matt R11 variation, to allow it to be used both indoors and outdoors in wet conditions such as in swimming pools and spas.

Oppdal: a new interpretation of the Nordic style for Terratinta.

Oppdal nasce ispirandosi a una pietra Norvegese, una quarzite dall'estetica minimale che si contraddistingue per le venature calcaree che simulano gli effetti della pietra originale.

La serie è declinata in 3 colori: Bomull, Grus e Kull, e disponibile in 3 formati principali (60x120, 60x60, 30x60cm) oltre a sottoformati e mosaici dal carattere innovativo.

Oltre alla finitura Matt R10 è presente una versione Ultra Matt R11 che ne consente l'utilizzo sia indoor che outdoor in condizioni di fondo bagnato, come piscine e spa.

Oppdal: una nuova interpretazione dello stile nordico per Terratinta.

Grained

Grained is the "graniglia" floor proposed by Terratinta, the concrete effect that mixes with fine grains. An interpretation of traditional technologies in modern optics, in the 120x120cm and 60x120cm sizes in 10.5mm thickness.

The color range consists of 4 hues: Zinc and Plate in the Matt R10 and Ultra Matt R11 finishes, while the unusual Rust and Green Copper are presented only in the Matt R10 finish.

The result is a revisitation of technical porcelain stoneware, suitable for any use, in a perfect mix between modern and vintage, always #terratintastyle.

Grained è la proposta di pavimento granigliato di Terratinta, l'effetto cemento che si mescola con granelli fini.

Un' interpretazione di vecchie tecnologie in ottica moderna, nei formati 120x120cm e 60x120cm in spessore 10,5mm.

La gamma cromatica è composta da 4 colori: Zinc e Plate nelle finiture matt R10 e ultra matt R11, e gli originali Rust e Green Copper solo nella finitura matt R10.

Il risultato è una rivisitazione del gres ceramico tecnico, adatto per qualsiasi utilizzo, in un perfetto mix tra moderno e vintage, sempre #terratintastyle.

STONEDESIGN

The "Stone" concept has been created to combine the basic perfection of the natural stone with the latest technologies and styles: Stonedesign is a project designed for indoor and outdoor spaces with a sophisticated and modern identity, and it is suitable also for heavy traffic areas. Unglazed porcelain tiles at their best.

Il concetto "Stone" nasce per combinare la semplice perfezione della pietra naturale con i più recenti stili e tecnologie. Stonedesign è un progetto pensato per interni ed esterni dall'identità moderna e sofisticata. Adatto anche ad aree ad alto traffico commerciale. Il meglio del porcellanato non smaltato.

BETONepoque

Betonepoque is not just a collection. Starting from four colors from Betontech collection, we designed something with a vintage aura and a modern and versatile soul. Something perfect for both walls and floors. Betonepoque is a new era.

Betonepoque non è solo una collezione. Partendo da quattro colori della gamma Betontech, abbiamo progettato qualcosa con un'aura vintage e un'anima moderna e versatile, perfetto sia per pareti che per pavimenti. Betonepoque è una nuova era.

betonstil CONCRETE

Light, Mid, Warm, Dark: four colors designed for any indoor space where minimalism, modernity and interior design are the key words. Four modern hues interpreted in the Concrete look. Latest color trends matching with fashion, contemporary style and design: this is Hexa, the decorative side of the project, from pink to green passing through blue shades, four modern and refined decors hues. This is Betonstil, the Scandinavian project par excellence, designed to bring a specific visual appeal to every residential or commercial venue: pure #terratintastyle.

Light, Mid, Warm, Dark: 4 colori per interni caratterizzati da minimalismo, modernità e design. Quattro tinte attuali interpretate nel look Concrete. I colori di tendenza incontrano la moda, lo stile contemporaneo e il design: ecco Hexa, il lato decorativo del progetto, dal bianco al rosa, dal verde al blu, quattro tonalità moderne e raffinate per i mosaici della collezione. Questa è Betonstil, il progetto Scandinavo per eccellenza, realizzato per garantire una particolare attrattività ad ambienti residenziali e commerciali. Puro #terratintastyle.

stone marble

The classic alongside the modern. With Stonemarble collection, we aimed to bring together the beauty of a classic like Carrara marble with the fresh, innovative and revolutionary style of patterns decors. An incomparable interpretation, never seen before.

Il classico accanto al moderno. Con la collezione Stonemarble abbiamo voluto unire la bellezza di un classico come il marmo di Carrara allo stile fresco, innovativo e rivoluzionario dei decori. Un'interpretazione eccezionale, mai vista prima.

The image shows two wicker chairs with a dark metal frame and a light-colored wicker mesh. Each chair has a thick, light-colored cushion. They are positioned in a room with a wall made of stacked logs. In the foreground, there is a small plate with fruit and an open magazine on the floor. The lighting is warm and directional, creating shadows on the floor and the log wall.
